About our company

NAIPL is a family-owned company from Tamilnadu, India, our director has 25 years of vast experience with diversified roles such as Project Manager, QA & QC Manager, Procurement Manager & HSE Manager in Oil & Gas, Power plants, Infrastructure and Marine in world class companies in GCC, Singapore & India. Handled several manufacturers and vendors around the globe. By his excellence and knowledge we made our working style in unique way to comply client expectations with competitive price without compromising Quality.

Why our company?

"Quality Is Our Base" is our slogan, NAIPL teamwork as Procurement Consultant for Projects, construction, manufacturing & Trading companies and our procurement engineers understand the technical requirement, budget, and expectations of the client, and our QA/QC engineers will monitor the quality requirement in each and every stage of production on behalf of the client from RFQ until dispatching the materials as per client requirement. We are very experienced in International Standard like ASME, ASTM, API, AWS, British, Japanese, European, IBR, Shell, ISO Standards, etc., and Client Specifications. Our quality team has work experience as a TPI like BV, DNVGL, VELOSI, REENA, ABS, etc.,

Our professional work culture will eliminate the complete inaccuracy in the platform system and enhance your entire Procurement Process with our solutions

We are committed to doing business with our Innovations, Quality, Ethical standards, Transparency & Integrity manner as our top Strategies with Customer Centric approach.

we do have a wide range of products and a Global manufacturer network within India and around the world.

NAIPL is ideal for procurement partners and consultants for your requirements.

Our mission

NAIPL will supply the right products to our clients with competitive price without compromising Quality.

We do Install, Test, Commissioning & Training all our supplied equipment for our valuable clients.

Procurement consultancy support to EPC, Manufacturing and Construction & Trading companies.

We supply items in a professional way by a well-qualified & experienced team from inquiry to handover of the projects..

We eliminate hidden issues by stagewise inspection from raw material to end product during the manufacturing process of each & every order with our experienced QA/QC Team.

Our Products

We do Install, Test, Commissioning, & Training all our supplied equipment for our valuable clients.
